EDUCATION

Master’s in Computer Science

Paris Saclay University 2024 - Present
Master Computer Human Interaction

Advanced program combining software engineering full-stack development, and designing for the creation of performant and accessible digital products.

Key areas: Full-stack development, Interaction Design, Web Accessibility, Web UX Prototyping, Usability Testing

Bachelor’s in Computer Science

Paris Saclay University 2021 - 2024

Computer science education covering the theoretical and practical foundations of software development.

Key areas: Algorithms, functional programming, databases, web development, optimization

TECHNICAL SKILLS & LANGUAGES

- Front-end:** React | Next.js | Tailwind CSS | HTML | CSS | JavaScript
- Back-end:** Node.js | Express.js | Next.js | JavaScript | Java | Spring
- Databases:** PostgreSQL | MongoDB | Drizzle
- General programming:** Java | C++ | Python | C# | JavaScript
- Architecture & tools:** Git | Storybook | Postman | Payload CMS
- Creative tools:** Figma | Premiere Pro | Photoshop | After Effects | Blender
- Languages:** English (C1+) | French (B2) | Vietnamese (Native)

PROFESSIONAL EXPERIENCE

Full-stack Developer Intern, Coderpad - Montpellier 03/2026 – 09/2026
JavaScript, TypeScript, React, Java, MUI, JUnit tests

- Developed features for an online coding interview platform.
- Worked on both **frontend** and **backend** using **React** and **Java**.
- Built and improved user interfaces for interview and assessment flows.
- Worked with the engineering team to choose simple and maintainable solutions.
- Improved code quality through **code reviews**, **testing** and **team discussions**.

Developer Intern, LISN Paris Saclay University – Orsay 06/2025 – 08/2025
Next.js, Tailwind CSS, Payload CMS, Storybook

- **Built a research website** to present publications, results and scientific content.
- Created clear and accessible pages for researchers and visitors.
- Integrated **Payload CMS** so the team can publish and update content without developer help.

Junior Developer, Dealsup – Antony 02/2023 – 01/2024
React, Tailwind CSS, Figma, Storybook

- **Redesign** and **rebuild** an administration system.
- Connected frontend components to backend APIs for data display and form submission.
- Turned Figma designs into clean and functional interfaces.
- Built and documented reusable UI components with **Storybook**.

Freelancer, Fiverr, Discord 11/2021 – Present
JavaScript, React, Next.js, Node.js, Tailwind CSS, PostgreSQL, MongoDB

- Delivered **75+** custom web solutions with a **4.9**-star rating on Fiverr.
- Managed projects from **end to end**: requirement analysis, technical planning, development, testing, deployment and client communication.
- Adapted technical solutions for different budgets and project sizes.
- Maintained good client relationships through **clear communication** and **reliable delivery**.

NOTABLE PROJECTS

Personal website [Link](#)

React, TypeScript, Tailwind CSS, GSAP, Three.js

- Designed and developed a personal portfolio website to present my skills, experience and projects.
- This project reflects my interest in building products that are both technically solid and visually polished.
- Designed the website to present information in a clear and accessible way, with attention to readability, visual hierarchy, and user experience.

Increment Paradise [Link](#)

React, Express.js, Node.js, TypeScript, PostgreSQL

- Built an online store for a Minecraft server with accounts, purchases and dynamic offers.
- Added real-time server syncing and an admin panel for products, users and content.
- Designed the database for users, products and purchase history.
