EDUCATION

Master’s in Computer Science

Paris Saclay University 2024 - Present
Master Computer Human Interaction

Advanced program combining software engineering full-stack development, and designing for the creation of performant and accessible digital products.

Key areas: Full-stack development, Interaction Design, Web Accessibility, Web UX Prototyping, Usability Testing

Bachelor’s in Computer Science

Paris Saclay University 2021 - 2024

Computer science education covering the theoretical and practical foundations of software development.

Key areas: Algorithms, functional programming, databases, web development, optimization

TECHNICAL SKILLS & LANGUAGES

- Frontend:** React | Next.js | Tailwind CSS | HTML | CSS | JavaScript
- Backend:** Node.js | Express.js | Next.js | JavaScript | Java | Spring
- Databases:** PostgreSQL | MongoDB | Drizzle
- General programming:** Java | C++ | Python | C# | JavaScript
- Architecture & tools:** Git | Claude Code | OpenAI API | Storybook | Payload CMS
- Creative tools:** Figma | Premiere Pro | Photoshop | After Effects | Blender
- Languages:** English (C1+) | French (B2) | Vietnamese (Native)

PROFESSIONAL EXPERIENCE

Full-stack Developer Intern, Coderpad - Montpellier 03/2026 – 09/2026
JavaScript, TypeScript, React, Java, PostgreSQL, MUI, testing

- Developed features for an online coding interview platform, covering both **frontend** and **backend**.
- Built **React** interfaces for interview and assessment workflows using **TypeScript** and **MUI**.
- Contributed to **Java backend** features and integrated them with a **PostgreSQL database**.
- Wrote and maintained **tests**, participated in **technical discussion** and used **AI-assisted tools** to support debugging and documentation.

Developer Intern, LISN Paris Saclay University – Orsay 06/2025 – 08/2025
Next.js, Tailwind CSS, Payload CMS, Storybook

- **Built a research website** to present publications, results and scientific content.
- Developed **responsive and accessible pages** using Next.js and Tailwind CSS.
- Integrated **Payload CMS** so researchers could update content independently.

Junior Developer, Dealsup – Antony 02/2023 – 01/2024
React, Tailwind CSS, Node.js, PostgreSQL, Figma, Storybook

- Contributed to the **full rebuild** of an internal administration platform.
- Developed **React** admin interfaces connected to **REST APIs** for data management and form workflows.
- Built **backend** endpoints with **Node.js** and worked with **PostgreSQL database**.
- Translated Figma designs into reusable, documented components.

Freelancer, Fiverr, Discord 11/2021 – Present
JavaScript, React, Next.js, Node.js, Tailwind CSS, PostgreSQL, MongoDB

- Delivered **100+** full-stack web solutions with a **4.9**-star rating on Fiverr.
- **Managed projects end to end**, from requirements and technical planning to development, testing, deployment and client communication.
- Used **AI tools** to **speed up** research, prototyping and debugging, while adapting the final solution to each client need.
- Maintained good client relationships through **clear communication** and **reliable delivery**.

NOTABLE PROJECTS

Personal website [Link](#)
React, TypeScript, Tailwind CSS, GSAP, Three.js

- Designed and developed a personal portfolio website to present my skills, experience and projects.
- This project reflects my interest in building products that are both technically solid and visually polished.

Increment Paradise [Link](#)
React, Node.js, TypeScript, PostgreSQL

- Built an online store for a Minecraft server with accounts, purchases and dynamic offers.
- Added real-time server syncing and an admin panel for products, users and content.
- Designed the database for users, products and purchase history.
